

Health and Social Care Forum Feedback, Thursday 03 July 2014

Thank you to those who provided feedback for the first Health and Social Care Forum.

Your feedback told us, you found the Forum valuable, well organised, timed well, and an excellent opportunity to network. You like the idea of inviting speakers, having time for a Q&A session, and having the Forum meet monthly to keep the momentum going.

For future Forums you asked for the new director for H&SC Sandy Riddell, people who would give a more national perspective and representation from health. We will discuss future speakers with the Forum. 'Thematic' or 'specific issue/workbased' sub-groups were also suggested to cover the diversity of the sector. We will also take this back to the Forum for discussion.

You suggested that we set aside time during the Forum for organisations to speak about their involvement in the H&SC integration and how this impacts on their organisation. We have included a section in the bulletin for organisations to promote what they do or specific projects. We will take this suggestion back to the Forum.

Forum Feedback

How productive did you find the following? Please rate (1 not productive – 5 very productive)

	Very	Quite	Partly	Fairly	Not
Input from Kenny Murphy	60%	30%	10%		
Presentation on Integration	40%	50%	10%		
Q&A on Integration	50%	40%	10%		

How full did you feel you were able to contribute to the following? Please rate (1 not at all – 5 fully)

	Fully	Quite a bit	Partly	Minimally	Not at all
Q&A on Integration	60%	30%	10%		
The Forum	70%	20%	10%		

Participants were asked to rate these statements.

	Strongly agree	Agree	Disagree	Strongly Disagree	Don't Know
As a result of taking part in the H&SC Forum I feel more connected with other organisations	50%	40%			10%
I feel better able to influence and contribute to public policy	20%	70%			10%
FVA brings extensive knowledge of the third sector and their views to partnerships	70%	30%			

How likely are you to attend future Health and Social Care Forums?

	Definitely	Probably	Might	Unlikely	Not attend
Attend	80%	20%			

10 attendees completed the Survey Monkey evaluation form.
