

Community Led Support
an NDTi Programme

Open Invite

- Have you got an interest in what is going on in your community, the support and services we have, and opportunities to live a good life?
- What's important to you and those around you?
- Come and join us, hear ideas and have your say!

In different areas across Fife, we will be working together on listening to what people tell us is important to them, making plans together and involving people in taking ideas forward.

This can include community facilities and activities, staying active, health and social care and other things that people think are important to living a good life.

We will explain a bit more of how we will do this and there will be a chance to chat and ask questions.

Who Is this for?

We hope that members of the community and different organisations will join us. Whether you have ideas or just want to hear more, please come along and get involved.

The sessions are -
