Fife Intensive Rehabilitation  
& Substance Misuse Team

Making it Work for Families is a partnership project in the Levenmouth & Kirkcaldy areas. We will be supporting lone parent, low income or out of work families affected by current, historic or at risk of substance use where there is a young person living at home who is in S1 or S2 at High School. We work with the whole family to progress each individual to achieve their goals, overcome barriers and raise aspirations.

**Adult Team**

**We work with parents and carers to provide holistic support at a pace that suits them.**

**Young Person Team**

**Providing support in 1 to 1 sessions and in groups to boost confidence, realise ambitions, and achieve potential.**

**Family Learning**

**Our family learning coordinator creates opportunities for families to play, laugh, and learn together.**

**Financial Inclusion**

**Supporting households to budget, maximise income, and address debt.**

**Rehabilitation**

**We work with families to support them with historic or current substance use.**
