BiFab Engineering Pre-Recruitment Academy

Industry Chief Endorses Fife Engineering Academy

Scottish Engineering chief executive officer, **Bryan Buchan**, paid a visit to Glenrothes manufacturing company, Fife Fabrications Ltd (FiFab) to launch an Engineering Academy.

Bryan Buchan said: “FiFab and the rest of the Consortium should be proud of their commitment to growing the skills needed for the Engineering sector by developing this Engineering Academy.

Right now, there is a serious Engineering skills shortage from the Central Belt to the North of Scotland. The average age of qualified engineers is mid-50s so it is crucial that we encourage more young people into Science and Technology to address the skills shortfall.

Women into engineering
