- ✓ We are currently supporting approximately **540** participants

About in-work support

Sharing some good news....

“I never thought at my age that I would be beginning a new career and it’s all thanks to Triage,” Susan, 64, Fair Start Scotland participant, working in the Healthcare sector.

“My advisor kept me on course, pointing out jobs, advising me about jobs I came across myself and checking over my application forms. The biggest help was providing interview prep on Teams and Zoom to help get me through the online interview.

From my first contact with Triage, I have received nothing but support, friendly, professional, wise advice and encouragement. I would urge anyone out there struggling to get back to work, to get in touch with Triage.”
