

# Volunteering and Voluntary Sector Awards

## Winner Story 2024

### About Fairway Fife

Fairway Fife is a Peer Mentoring Charity supporting young adults with learning disabilities and autism from 16 years of age. They recognise that all people, regardless of ability or disability, have their own unique gifts and strengths to contribute positively to their own community. Their members are supported to strive towards living their dreams through the support of their peers who have similar interests.

### Why they deserve this award

Fairway Fife supports people with learning disabilities and autism to engage with their community and build lasting friendships. In addition to social activities like shopping and lunch trips, they have added lots of sports and outdoor activities like pickleball, football, gardening, mountain biking, woodland skills, and more.

**They have added lots of sports and outdoor activities, constantly growing and supporting more people to engage in meaningful activities.**

The organisation is constantly growing and supporting more people to engage in meaningful activities, volunteering opportunities, and friendships. They have created a welcoming, supportive, and fun environment for their members, and have now increased the amount of physical activities that young people with learning disabilities and autism can engage with throughout South West Fife.
