

Volunteering and Voluntary Sector Awards

NAME: Morna McMurray

AWARD: Active Volunteer

Morna started volunteering while she attended Beath High. She went on to gain her first netball qualification at the age of 16 and continued her afterschool netball clubs. Over the years, Morna's passion for giving back to her local community has expanded with her taking over as head coach at Kirkcaldy Netball Club.

Morna's enthusiasm for "just getting more folk playing" is infectious and has resulted in her building up a strong team of volunteers to help run the netball club – from committee members to coaches. The club has grown significantly in size and is able to cater for primary school kids through to adults, both competitively and recreationally.

Morna has built up a strong team of volunteers and has grown the club significantly in size.

Morna has worked closely with many local partners in the area to provide strong community links into netball, as well as bringing in significant funding to resurface the school MUGA to add in another netball court. This has increased netball participation in the school and community.

As if running a community club was not enough, Morna stepped forward to take on the role of president for Fife's first netball association. Morna has been instrumental in encouraging volunteers to come together to promote netball for all ages and stages across Fife.

Morna has been instrumental in encouraging volunteers to come together to promote netball for all ages and stages across Fife.

The association has been running for just two years and within that time has worked closely with partners to increase participation significantly with the establishment of adult and junior leagues, development days, camps, and coach education in Fife along with Fife's District netball performance programme.
