

## Guidance Notes – please read carefully before applying

### 1. Introduction

The purpose of the Scottish Government Short Breaks Fund is to improve the range and availability of short breaks for Scottish carers and the people they care for.

#### **Carers can apply for up to £300 from the Creative Breaks Fund.**

Short breaks can make a huge difference to carers and the people they care for by providing the time to rest, to be themselves, to pursue a hobby, catch up with friends or just relax and recharge. For some people a short break is something they enjoy having together (the carer and the cared-for person) and for others it is about enjoying quality time apart.

This current funding cycle will run in Fife from **01 November 2020 until 30 September 2021.**

### 2. Eligibility Criteria

**If you have received funding within the last 24 months, you will be assessed at a low priority**

Applicants (carers) to the Creative Breaks Fund must:

- live and care in Fife
  - be carers of adults or older people (aged 21 or over) with care and support needs or
  - young carers, (caring for children or adults)

**An adult carer is defined as:** A person who provides for another person – but not: (i) if this is only because of that person's age (where they are under 18); or (ii) if you are caring because you have a contract or as voluntary work. A carer can be caring for someone for any number of hours and does not need to be providing a substantial amount of care for someone on a regular basis. **A young carer is defined as:** A 'young carer' is a carer (as defined above) who is: (i) under the age of 18; or (ii) 18 or over, but still attending school. Source: Carer's Charter, Scottish Government (March 2018)

### **This fund cannot support carers of children and young people under the age of 20**

The Scottish Government has funded a separate programme called Better Breaks for this purpose.

Anyone wishing to make an application to the Creative Breaks fund should also consider:

- Carers who apply will usually be providing 20+ hours/week of practical or other support
- The health and wellbeing of the carer or the person receiving care is under strain and is likely to be improved by a short break;
- The relationship between the carer and the person receiving care or the wider family is under strain, and relationships may be improved by a short break;
- The carer (and/or the person receiving care) is able, possibly with support, to make the necessary arrangements for the break.

### **3. Priority Areas**

Due to limited funds, the panel will need to prioritise applications. **Carers who fit one or more of the following categories will have a greater chance of success with their application:**

- Carers who live in remote and rural areas and those living in areas of deprivation;
- Carers from equalities groups;
- Carers who have been admitted to hospital or have needed sudden medical treatment over the past 12 months, or
- Carers who support someone who has had at least one hospital stay in the past 12 months.

### **4. What can be funded?**

The Creative Breaks Fund in Fife is designed to achieve the following outcomes:
